

PhD in Geosciences Temple University

The Department of Earth and Environmental Science at Temple University is expanding our graduate program to include a PhD in Geosciences. The department has added 5 faculty in recent years, with additional growth expected.

We currently have research funding in the following specialties:

- Hydrogeophysics
- Landscape response to fires
- Weathering and diagenesis
- Polar geophysics

Students will be provided 4 years of support with teaching and research assistantships. Applicants should hold a bachelor's or master's degree in geosciences or related discipline.

Accepting applications for admission in the Fall of 2016.
Application deadline February 1, 2016.
